TRANSFUSION—VOLUME 27 (1987)

Subject Index

In the subject index the page number refers to the first page of the communication in which the subject is addressed rather than to the specific page on which the referenced key words can be found. A "C" in parenthesis following the page number indicates that the subject entry appeared in correspondence to the editor; an "E" in parenthesis following the subject entry indicates that the subject is discussed in an editorial.

In Volume 27 (1987), Number One (January–February) contains pages 1–124; Number Two (March–April), pages 125–218; Number Three (May–June), pages 218–294; Number four (July–August), pages 295–370; Number Five (September–October), pages 371–446; and Number Six (November–December), pages 447–586.

A

A_{pae} 315
ABO
  antigens in bile following liver transplantation 384
  groups, related to *Escherichia coli* sepsis ....504(C)
  outdating 219
  subgroups ....114(C), 315
Abortion, associated with anti-P 189
Acquired B antigen 41
Acquired immunodeficiency syndrome 201, 371, 482
Acquired von Willebrand's disease 234
Acute leukemia, apheresis for 353
Adenine 178, 496
Adenosine triphosphate (ATP) 178, 411, 496
AET, see 2-aminoethylisothiouronium bromide
ADSOL, see AS-1
AIDS-associated retrovirus, see human immunodeficiency virus
AIDS, see acquired immunodeficiency syndrome
Alanine aminotransferase (ALT) ....203, 367(C), 431
Alleged fathers 288
Alloantibodies, red cell 449
2-aminoethylisothiouronium bromide (AET) ....505(C)
Anemia
  hemolytic, associated with
    auto-anti-Jk^a 58
    IgM autoagglutinin 464
    nomifensine 250
  sickle cell 94
Antibody, general
  beta-propiolactone, effect on ....214(C)
  binding properties 453
  identification 295
  irregular, in patients with sickle cell disease 94
  screening, panels for 69
Antibody, specific
  anti-A_1 145
  anti-At^a 468
  anti-c ....117(C)
  anti-Co3 268
  anti-complement, C9 475
  anti-D, chemically modified 142
  anti-Dr^a 64
  Anti-E-like 145
  anti-Emm 319
  anti-Fy^b ....366(C)
  anti-Ge-like autoantibody 54
  anti-H, anti-HI 145
  anti-Jk^a ....58, 117(C), 145
  anti-K 138
  anti-Kell-like 145
  anti-Lan ....117(C)
  anti-Le^b 145
  anti-M 145
  anti-N 145
  anti-P, early abortion associated with 189
  anti-P 272
  anti-Tj^a 272
  anti-U 330
  autoanti-Jk3 ....442(C)
  autoanti-Kx 322
  cephalosporin-dependent 460
Antigen
  ABO in bile following liver transplantation 384
  A, loss in acute leukemia 45
  acquired B 41
  beta-propiolactone, effect on ....214(C)
  Co^a 268
  C^x (Rh9) 66
  Dr^a 64
  Emm 319
  Er^a
    inheritance of ....118(C)
    loss in low pH buffers ....442(C)
  HLA antigens, general
    on red cells ....214(C)
    parentage testing with 75
  K23 36
  Kx 322
  Lutheran
    AET effect on ....505(C)
    glycoproteins of 61
  minor blood group matching 94
  MNSs, on platelets 15
  red cell, general
    in Hispanic blood donors ....117(C)
    on platelets 15
  Rh_0 (D) 32, 257
  Wr^b 325
  synthetic 272
Antiglobulin test
  direct
    compatibility testing, as part of 125
    positive following intravenous immune globulin ....28, 248, 503(C)
  hexamdimethrine bromide (Polybrene) 134, 138, 295
  low-ionic strength 125, 138, 295
  reagents 453
  solid phase 378
Apheresis, preparative, see also individual components
  colony forming units-granulcyte/monocyte 19, 155, 276
  exercise prior to 155
  hematopoietic progenitor cells 276
  hydroxyethyl dose starch in 350
  granulocyte-platelet collection by 10
  modified fluid gel in ....112(C)
  plasma, sensitization during 90
  platelet
    cell separator 10, 499
    safety of 90
Apheresis, therapeutic, use in
  acquired von Willebrand's disease 236
  acute leukemia 353
  anti-P and early abortion 189
  mushroom poisoning ....116(C)
  thrombotic thrombocytopenic purpura ....445(C)
Arabs, Cartwright blood group in 471
AS-1 red cell storage system 178, 279, 496
AS-3 red cell storage system 178
Assay, see also enzyme-linked immunoassay
  chemiluminescence 23
  cytomegalovirus antibody screening 478
  HIV antibody ....1, 109, 112(C), 210
  manual hexadimethrine bromide (Polybrene) test 295
  monocyte monolayer 449
  nitroblue tetrazolium reduction 23
  radioallergosorbent test (RAST) 90
  solid-phase antiglobulin 378
  zinc protoporphyrin 238
ATP, see adeonosine triphosphate

TRANSFUSION—VOLUME 27 (1987)

Subject Index

In the subject index the page number refers to the first page of the communication in which the subject is addressed rather than to the specific page on which the referenced key words can be found. A "C" in parenthesis following the page number indicates that the subject entry appeared in correspondence to the editor; an "E" in parenthesis following the subject entry indicates that the subject is discussed in an editorial.

In Volume 27 (1987), Number One (January–February) contains pages 1–124; Number Two (March–April), pages 125–218; Number Three (May–June), pages 218–294; Number four (July–August), pages 295–370; Number Five (September–October), pages 371–446; and Number Six (November–December), pages 447–586.

A

A_{pae} 315
ABO
  antigens in bile following liver transplantation 384
  groups, related to *Escherichia coli* sepsis ....504(C)
  outdating 219
  subgroups ....114(C), 315
Abortion, associated with anti-P 189
Acquired B antigen 41
Acquired immunodeficiency syndrome 201, 371, 482
Acquired von Willebrand's disease 234
Acute leukemia, apheresis for 353
Adenine 178, 496
Adenosine triphosphate (ATP) 178, 411, 496
AET, see 2-aminoethylisothiouronium bromide
ADSOL, see AS-1
AIDS-associated retrovirus, see human immunodeficiency virus
AIDS, see acquired immunodeficiency syndrome
Alanine aminotransferase (ALT) ....203, 367(C), 431
Alleged fathers 288
Alloantibodies, red cell 449
2-aminoethylisothiouronium bromide (AET) ....505(C)
Anemia
  hemolytic, associated with
    auto-anti-Jk^a 58
    IgM autoagglutinin 464
    nomifensine 250
  sickle cell 94
Antibody, general
  beta-propiolactone, effect on ....214(C)
  binding properties 453

  anti-complement, C9 475
  anti-D, chemically modified 142
  anti-Dr^a 64
  Anti-E-like 145
  anti-Emm 319
  anti-Fy^b ....366(C)
  anti-Ge-like autoantibody 54
  anti-H, anti-HI 145
  anti-Jk^a ....58, 117(C), 145
  anti-K 138
  anti-Kell-like 145
  anti-Lan ....117(C)
  anti-Le^b 145
  anti-M 145
  anti-N 145
  anti-P, early abortion associated with 189
  anti-P 272
  anti-Tj^a 272
  anti-U 330
  autoanti-Jk3 ....442(C)
  autoanti-Kx 322
  cephalosporin-dependent 460
Antigen
  ABO in bile following liver transplantation 384
  A, loss in acute leukemia 45
  acquired B 41
  beta-propiolactone, effect on ....214(C)
  Co^a 268
  C^x (Rh9) 66
  Dr^a 64
  Emm 319
  Er^a
    inheritance of ....118(C)
    loss in low pH buffers ....442(C)
  HLA antigens, general
    on red cells ....214(C)
    parentage testing with 75
  K23 36
  Kx 322
  Lutheran
    AET effect on ....505(C)
    glycoproteins of 61
  minor blood group matching 94
  MNSs, on platelets 15
  red cell, general
    in Hispanic blood donors ....117(C)
    on platelets 15
  Rh_0 (D) 32, 257
  Wr^b 325
  synthetic 272
Antiglobulin test
  direct
    compatibility testing, as part of 125
    positive following intravenous immune globulin ....28, 248, 503(C)
  hexamdimethrine bromide (Polybrene) 134, 138, 295
  low-ionic strength 125, 138, 295
  reagents 453
  solid phase 378
Apheresis, preparative, see also individual components
  colony forming units-granulcyte/monocyte 19, 155, 276
  exercise prior to 155
  hematopoietic progenitor cells 276
  hydroxyethyl dose starch in 350
  granulocyte-platelet collection by 10
  modified fluid gel in ....112(C)
  plasma, sensitization during 90
  platelet
    cell separator 10, 499
    safety of 90
Apheresis, therapeutic, use in
  acquired von Willebrand's disease 236
  acute leukemia 353
  anti-P and early abortion 189
  mushroom poisoning ....116(C)
  thrombotic thrombocytopenic purpura ....445(C)
Arabs, Cartwright blood group in 471
AS-1 red cell storage system 178, 279, 496
AS-3 red cell storage system 178
Assay, see also enzyme-linked immunoassay
  chemiluminescence 23
  cytomegalovirus antibody screening 478
  HIV antibody ....1, 109, 112(C), 210
  manual hexadimethrine bromide (Polybrene) test 295
  monocyte monolayer 449
  nitroblue tetrazolium reduction 23
  radioallergosorbent test (RAST) 90
  solid-phase antiglobulin 378
  zinc protoporphyrin 238
ATP, see adeonosine triphosphate

Audits, platelet transfusions 192
Authors' instructions, detailed 120
Autoagglutinin, hemolytic 464
Autologous transfusion ..... 291(C), 441(C)
Autoradiography 335
Autosurge technique, plateletapheresis with 499

B

Bacteria, platelet contamination with 2
Bedside testing ..... 445(C)
Bile, ABO antigens in 384
Bone marrow transplantation
  cytomegalovirus seronegative components following 478
  red cell antibodies following 145
  pediatric donor for ..... 441(C)
  T-cell purge in 148
Blood bags 183
Blood center employees, hepatitis risk in 242
Blood components, see also under specific component
  delivery, use of pneumatic tube 196
  sterility 2
  utilization 222, 226
Blood donors, see donors
Blood group distribution ..... 114(C), 117(C), 219, 319, 388, 471, 488
Blood group system
  ABO ..... 315, 504(C)
  Cartwright 471
  Gerbich 309
  Kell 36, 138, 322
  Lutheran ..... 61, 505(C)
  MNS 15
  P 272
  Rh 66
Blood grouping, reagents for ..... 142, 302, 442(C)
Blood shipping, refrigerants for 406
Blood utilization 219, 222, 226
Blood processor, see cell separator
Blood transfusion complications, see transfusion reactions
Bovine serum albumin 302
Bystander red cells, hemolysis of 49

C

C gene 257
Cancer, gastric, survival with 375
Carbonyl iron 80
Cell separators
  bone marrow preparation with ..... 441(C)
  lymphocyte isolation with 362
  T-cell purging with 148
CEM cell line ..... 1(E), 109
Cephalosporin
  dependent antibody, hemolysis with 460
  red cell adsorption of 266
CFU-GM, see colony-forming unit-granulocyte/moncyte
Chinese, blood groups in ..... 114(C), 388
Chromatography, use to remove
  fibrinogen 174
  virus 171
Chromium-51 cell label, red cells 178, 415
Citrate-phosphate-dextrose, see red cell preservation
CMV, see cytomegalovirus
Coagulation factors, see individual factors
Codium fragile, anti-A agglutination by 315
Colloid osmotic pressure 425
Colony-forming-unit, granulocyte/monocyte
  cryopreservation 19
  effect of exercise on collection of 155
Colton 268
Compatibility testing ..... 125, 134, 366(C), 420, 445(C)
Component, see under specific blood product
Complement
  deficiency of C9 475
  hemolysis independent of 49
  monoclonal antibodies, to components of 453
Computerized red cell panel selection 69
Congenital hypoplastic anemia, Th in 253
Confidential unit exclusion 207
Consensus conferences ..... 291(C)
Consultation in transfusion medicine 192
Controlled-pore glass, purifying factor VII with 174
CPD, CPDA-1, see red cell preservation
Cromer-related antigens 66
Crossmatch, see compatibility testing
Cryoprecipitate
  fibronectin in 491
  fibrinogen concentration in 356
  yield of factor VIII in 174, 491
Cryopreservation, see individual component
Crystalloid solutions, in blood shipment 406
Cumulative probability of exclusion 288
Cytomegalovirus (CMV), donor antibody status 203, 207, 478, 488
Cytapheresis, see under apheresis, specific cell

D

D antigen, *C* gene effect on 257
DAT, see antiglobulin test
Deferral of donors 199, 238
Delayed transfusion reactions, see transfusion reactions
Delivery of blood components 196
Detailed instructions for authors 121
Dextran, compatibility testing following ..... 366(C)
DIC, see disseminated intravascular coagulation
2-dimensional electrophoresis, platelets studied by 335
Dimethyl sulfoxide 19
2,3-diphosphoglycerate (2,3-DPG) ..... 178, 293(C), 496
Direct antiglobulin test (DAT), see antiglobulin test
Directed donations ..... 503(C)
Discontinous density gradient 362
Disseminated intravascular coagulation (DIC) 353
Disulfide bonds, red cell membrane ..... 266, 505(C)
Donors
  apheresis, safety during 90
  autlogous ..... 291(C)
  bone marrow ..... 441(C)
  deferral 199, 238
  directed, spouses as ..... 503(C)
  elliptocytosis in ..... 113(C)
  HLA matched pool size 394
  iron
    stores in 238, 488
    supplementation of 80
  minor blood group matching 94
  red cell antigens in
    Chinese ..... 114(C)
    Hispanic ..... 117(C)
  safety, during apheresis 90
  screening
    alanine aminotransferase (ALT) ..... 203, 367(C), 431
    cytomegalovirus 203, 207, 478, 488
    hematocrit/hemoglobin 238, 485
    hepatitis B core antibody 99, 103, 107, 203, 438
    human immunodeficiency virus (HIV) antibody .... 1(E), 109, 112(C), 118(C), 201, 207, 210, 215(C), 216(C), 367(C), 488, 503(C)
    surrogate tests 99, 103, 203, 431, 438
    Trypanosoma cruzi 488
  spouse, as directed donor ..... 503(C)
Drug-induced cytopenia
  anemia 250
  thrombocytopenia 262
Druse, Cartwright blood group in 471

E

Elliptocytosis, occurrence in blood donors ..... 113(C), 213(C)
Elutriation, for T-cell purge 148
Emm 319
Enzyme linked immunoassay (EIA)
  cytomegalovirus antibodies 203, 207, 478, 488
  hepatitis B core antibody 99, 103, 107, 203, 438
  human immunodeficiency virus (HIV) antibodies .... 1(E), 109, 112(C), 118(C), 210, 215(C), 216(C), 367(C), 488, 503(C)
Erythroblastosis fetalis, see hemolytic disease of the newborn
Escherichia coli sepsis, ABO group related to ..... 504(C)
Ethylene oxide, plasma donor sensitization to 90
Exclusion probability, paternity 75
Exercise, effect on apheresis components 155

F

Factor VIII
  cryoprecipitate purification of 174
  HIV transmission risk from concentrates of 482
Factor IX concentrate
  hemolysis from isoagglutinins in ..... 292(C)
  hepatitis removal from 171
Fibronectin concentrates 491
Fibrinogen, cryoprecipitate concentration 356
Ficoll-Hypaque, lymphocyte separation with 362

Filters, blood ..... 213(C), 279, 332, 402, 504(C)
Flatbed platelet agitators 399
Free fatty acid, platelet metabolism of 434
Fresh-frozen plasma, use of 226

G

Gastric cancer, effect of transfusion on 375
Gerbich blood groups system 309
Glutathione, platelet during storage 342
Glycoproteins, Lutheran blood group 61
Gold salts, associated loss of antigen 54
Gradient
  Ficoll-hypaque 362
  Percoll-Renographin 86
  phthalate 86
  silicone oil 86
Graft-versus-host disease (GVHD) 167
Granulocyte
  agitation 165
  irradiation 167
  kinetics in vivo 23
  preservation 165, 167
Granulocyte-platelet concentrate, see also under platelets 10
GVHD, see graft-versus-host disease

H

H-9 cell line ..... 1(E), 109
HBV, see hepatitis B virus
HDN, see hemolytic disease of the newborn
HBsAg, see hepatitis B virus surface antigen
Heat inactivation, causing false-positive tests ..... 112(C)
Helix pomatia 315
Hemagglutination enhancers 134, 138, 302
Hemapheresis, see apheresis
Hematocrit, upper limit in donors 485
Hematopoietic progenitors 276
Hemoglobin solutions 425
Hemophilia, see also individual coagulation factors
  antibodies to human immunodeficiency virus in ..... 112(C)
  hepatitis vaccination in ..... 443(C)
  HIV transmission, risk of 482
Hemolysis
  associated with
    auto-anti-Jk^a 58
    factor IX concentrates ..... 292(C)
    IgM autoagglutinin 464
    nomifensine 250
  C3-independent 49
Hemolytic disease of the newborn (HDN) ..... 117(C), 268, 366(C), 468
Heparin-precipitated components 491
Hepatitis B virus
  core antibody testing 99, 103, 107, 203, 207, 438
  employee exposure, risk of 242
  removal of 171
  surface antigen, testing for 207, 488
  vaccination, booster following ..... 443(C)
Hepatitis, non-A, non-B ..... 99, 103, 107, 203, 367(C), 431, 438
HES, see hydroxyethyl starch
Hexadrimethrine bromide-antiglobulin test 134, 138
Hispanics, blood groups in ..... 117(C)
HIV, see human immunodeficiency virus
HLA
  antibodies, in tests for anti-HIV ..... 1(E), 109, 112(C), 118(C)
  antigens on red cells ..... 214(C)
  matched platelet transfusions 394
  typing for paternity testing 75
HTLV-III, see human immunodeficiency virus
Human immunodeficiency virus (HIV)
  inactivation of ..... 115(C)
  look-back for ..... 201, 503(C)
  risk in transfusion recipients ..... 217(C), 371, 482
  tests for antibody
    comparisons of ..... 1(E), 109, 210, 215(C)
    decrease reactive rate in blood donors ..... 502(C)
    HLA antigen cross-reaction in ..... 1(E), 109, 112(C), 118(C)
    high-risk population, results in ..... 112(C), 216(C)
    immune globulin, effect on ..... 367(C), 503(C)
    look-back for positive tests ..... 201, 503(C)
    Western blot ..... 369(C)
Human T-cell lymphotropic virus, Type III, see human immunodeficiency virus
HUT-78 cell line ..... 1(E)
Hyperbilirubinemia, following plasmapheresis ..... 368(C)
Hypoplastic anemia, congenital 253
Hydroxyethyl starch, granulocyte separation with 350

I

Immune globulin preparations
  human immunodeficiency virus
    antibodies in ..... 367(C), 369(C), 503(C)
    inactivation in ..... 115(C)
  intravenous
    antiglobulin test following administration of ..... 28, 248, 503(C)
    safety ..... 115(C), 367(C), 369(C)
    platelet alloimmunization, use in 245
    serologic tests following administration of ..... 503(C)
    thrombotic thrombocytopenic purpura, use in ..... 115(C)
Immune hemolysis, associated with
  cephalosporin-dependent antibody 460
  factor IX concentrate ..... 292(C)
Immunosuppression, transfusion effect 375
In vivo crossmatch 420
Indium labeling
  granulocytes 23
  red cells 415, 420
Inheritance, Er^a ..... 118(C)
Inhibitor gene 268
Instructions for authors, detailed 121
Iron stores in donors 80, 238
Irradiation, blood components ..... 167, 444(C)
Isoagglutinins, in factor IX ..... 292(C)
Israeli Jews, Cartwright blood group in 471

J

Japanese, hereditary C9 deficiency in 475

K

Kell system 36, 138, 322

L

LAK, see lymphokine-activated killer cells
LAV, see human immunodeficiency virus
Leach type Ge– red cells ..... 213(C)
Legislation, paternity 288
Leukaphereis, see apheresis
Leukemia, loss of A antigen in 45
Leukocyte contamination, of fresh-frozen plasma ..... 368(C)
Leukocyte-depleted components ..... 159, 162, 213(C), 279, 281, 332, 402, 504(C)
Leuokocyte fragmentation following apheresis 353
Ligands 302
Liver transplantation, blood use in 222
Look back, based on HIV-positive blood donors ..... 203, 503(C)
Low-ionic strength antiglobulin test 125, 138
Lymphadenopathy-associated virus, see human immunodeficiency virus
Lymphokine-activated killer cells (LAK) 362

M

Manual Polybrene test 295
Maternal platelets, cryopreservation of 347
Membrane, red cell ..... 32, 61, 266, 309, 411, 505(C)
Microaggregate filters ..... 213(C), 279, 332, 402, 504(C)
MNSs system 15
Modified fluid gelatin, use in leukapheresis ..... 112(C)
Modified hemoglobin 425
Monoclonal antibodies 453
Monocyte monolayer assay 449
Multiple transfusions, HIV risk from ..... 217(C)
Mushroom poisoning, apheresis for ..... 116(C)

N

Neonatal transfusions 219, 347
Nigerian blood donors ..... 216(C)
Nomifensine, hemolysis due to 250
2-nor-2-formlylpyridoxel 5'-phosphate (NFPLP) 425
Notice to contributors ..... No. 1, 124; No. 2, 218; No. 3, 11A; No. 4, 10A; No. 6, 20A

O

O_{Hm} 388
OKT-4/8 ratios 482
Optical sensor, platelet-rich plasma prepared with ..... 368(C)
Outdate, blood 219
Oxidative metabolism, granulocytes 167
Oxygen delivery, sickle cell disease 228
Oxygen dissociation curve ..... 293(C), 425

P

P system 272
Para-Bombay phenotype 388
Parentage testing
  HLA for 75
  limitations of 288
Paternity index 288
Pentoxifylline, effect on Wr^b 325
Percoll-Renographin gradient 86
Phthalate gradient 86
Physician education 192, 226
Placenta, red cells from 411
Plasmapheresis, hyperbilirubinemia following ....368(C)
Plasmapheresis, therapeutic, see apheresis
Plastic, effects on components 183, 284, 399
Platelet
  antibodies 245, 250, 262, 394
  apheresis, preparative 10, 499
  beta thromboglobulin release by 10
  concentrates
    leukocyte-depleted 159, 162, 281
    radiolabeled 6, 10
    washing 391
    storage and preservation
      aggitation effect 399
      bacterial proliferation during 2
      cryopreservation 347
      extended 6, 284
      glutathione during 342
      metabolism during 434
      pH during 10, 284
      proteins changes during 335
      plastic, effect on 6, 284, 399
      survival following 6, 10
  free fatty acid metabolism 434
  HLA-matched 394
  reactions 391
  red cell antigens on 15
  refractoriness 245, 394
  sterility 2, 284
  survival 6, 10
  transfusion
    apheresis concentrates 499
    audits 192
    neonatal patients, maternal platelets for 347
    sepsis following 2
Platelet-rich plasma, leukocyte contamination of ....368(C)
Pneumatic tube, blood bank delivery with 196
Polybrene, see hexadimethrine bromide
Polycythemia 485
Polyolefin plastic, platelet storage in 284
Polyvinyl chloride plastic, storage in
  platelets 6, 284, 399
  red cells 183
Potassium, levels in irradiated blood ....444(C)
Preoperative preparation, blood bank 359
Pretransfusion testing 125, 134
Procoagulants, see individual coagulation factors
Progenitor cells, see also under specific cell line....19
Pulmonary edema, posttransfusion ....293(C)
Purpura, posttransfusion 250

R

Radioimmunoassay, hepatitis B core antibody 203, 207, 438
Reagents
  blood grouping .... 142, 302, 442(C)
  antiglobulin test 125, 134, 138
Red cell
  A antigen loss 45
  antigens, effect of beta-propiolactone on ....214(C)
  cryopreservation 496
  elliptocytosis ....113(C), 213(C)
  glycoproteins .... 61, 213(C), 309
  HLA antigens on ....214(C)
  incompatibility 125, 134
  leukocyte-depleted .... 213(C), 279, 332, 402, 504(C)
  membranes ....32, 61, 266, 309, 411, 505(C)
  newborn, placental origin 411
  particles, presumed ghosts 49
  preservation .... 178, 183, 293(C), 411, 415, 496
  sensitization by immune globulin 248
  shipment 406
  survival in vivo 178, 415, 420
  Th reactivity of 253
  vesicles, immunoreactivity of 32
Refractoriness, to platelet transfusions 245, 394
Refrigerants, blood shipment use 406
Reticulocyte enrichment 86
Rheumatoid arthritis, antigen loss in 54
Rh typing 142
$\overline{Rh}^N$ 330

S

Saline solutions, as refrigerants 406
Salmonella septicemia following platelet transfusion 2
Same-day surgery, blood needs for 359
Sepsis
  following platelet transfusions 2
  related to ABO group ....504(C)
Sialoglycoprotein, red cell ....213(C), 309
Sickle cell anemia
  blood group matching in 94
  red cell transfusion in 228
Silicone oil gradient 86
Solid-phase immunohematology 272, 378
Spin-cool filter procedure .... 213(C), 279, 332
Spouse, directed donations by ....503(C)
Stem cells 19, 155, 276
Sterility, blood components 2, 284
Storage, see individual component
Stroma-free hemoglobin 425
Surge technique, plateletapheresis with 499
Surgery, same-day, blood needs for 359
Surrogate testing, hepatitis .... 99, 103, 107, 203, 367(C), 431, 438
Synthetic media, red cell storage in 178, 496

T

T-cell, marrow purging of 148
Technetium labeling, red cells 415, 420
Test kits, see assay
Th reactivity 253
Thrombocytopenia, immune 262
Thrombotic thrombocytopenic purpura, apheresis for ....445(C)
Transfusion audits 192, 226
Transfusion, autologous ....291(C), 441(C)
Transfusion, see also individual components
  fresh-frozen plasma 226
  liver transplant, use in 222
  multiple ....217(C)
  granulocytes 232
  platelet, sepsis following 2
  sickle cell anemia, in 228
Transfusion medicine, education in 192, 226
Transfusion reaction
  febrile, reduction of .... 213(C), 279, 332, 391, 402
  human immunodeficiency virus transmission risk 371
  pulmonary edema ....293(C)
  septic, following platelet transfusion 2
  survival, gastric cancer 375
Transplantation
  bone marrow
    cell collection for .... 19, 276, 441(C)
    CMV seronegative blood in 478
    intravenous immune globulin in 28
    red cell antibodies following 145
    T-cell purge in 148
  liver
    ABO antigens in bile following 384
    blood use in 222
  renal ....291(C)
Tri(2-ethylhexyl) trimellitate (TOTM) 399
Trimethoprim-sulfamethoxazol 262
Typing reagents .... 142, 302, 442(C)

V

Vaccination, hepatitis B booster in ....443(C)
Venezuela, characteristics of donors in 488
Vesicles, red cell 32
Viscosity, in sickle disease 228
von Willebrand's disease, acquired 234

W

Western blot, of pooled material ....369(C)
Wr^b, effect of pentoxifylline on 325

Z

Zinc protoporphyrin assay 238
